

Assessment Task Notification

RICHMOND RIVER HIGH CAMPUS

| Task Number | 2 | Task Name | Practical Submission/diary and Artist Case Study | |
|---------------|-------------------------------|-------------------|--|--|
| Course | Yr 11 CERAMICS | Faculty | CAPA | |
| Teacher | Ms Simpson | Head Teacher | Ms Hook | |
| Issue date | Friday 17.5.24 Week 3A | Due date | Friday 14.6.24 Week 7A | |
| Focus (Topic) | Module 7 Surface Treatment | Task Weighting | 30% Making 20% C&H 10% | |

Outcomes

- M1: generates a characteristic style that is increasingly self-reflective in their ceramic practice
- M2: explores concepts of artist/ceramist/sculptor/designer/maker, interpretations of the world and of audience response in their making of ceramic works
- M3: investigates different points of view in the making of ceramic works
- M4: explores ways of generating ideas as representations in the making of ceramic works
- M5: engages in the development of different techniques suited to artistic intentions in the making of ceramic works
- M6: takes into account issues of Work Health and Safety in their practice
- CH1: generates in their critical and historical investigations ways to interpret and explain ceramic works and practices
- CH2: investigates the roles and relationships of the concepts of work, world, artist/ceramist/sculptor/designer/maker and audience in critical and historical investigations
- CH4: explores ways in which histories, narratives and other accounts can be built to explain practices and interests in ceramics
- CH5: recognises how ceramic works are used in various fields of cultural production

Task Description: Surface Treatment- 3 PARTS

PART 1

Prac/Making (20%):

You will produce a ceramic work that is decorated with at least one of the following techniques:

Mishima, slip tailing, sgraffito, embossing/stamping or water etching.

The amount of work produced should reflect six weeks of sustained making.

PART 2

Your Ceramics Process Diary will be marked. It must include:

- All WH&S handouts
- Planning/sketches of your designs/pieces
- Reflections for each piece submitted
- Notes from class

PART 3

Theory/Critical and Historical (10%)- Artist Case Study
MUST BE SUBMITTED THROUGH GOOGLE CLASSROOM

I am an artist Case Study- see scaffold below

- Reflection on your own process and piece/s you made
- Your process- what you did to make your piece
- Inspiration- artist research- images, bio info, process

Grammar Features to Use

Complex noun groups For example: *The large oval-shaped shield, decorated with detailed patterns, captivates with its immersive design.*

Causal conjunctions/adverbials establish causal sequences (e.g. so, due to/consequently)

Evaluative language, including **adjectives and adverbs** (e.g. worthwhile/trivial, successfully/disappointingly)

Marking Guidelines- MAKING & Diary

| Wi Gi | King Caldelines- MARANCO & Diary | |
|-------|--|-----------------------|
| • | Ceramic pieces exemplify an outstanding level of technical proficiency, as evidenced by the seamless integration of intricate surface decoration techniques, showing an extensive understanding of one or more surface techniques. Ceramic pieces are refined, and surfaces are finished to a high standard. The process diary thoroughly investigates the student's ceramic practice through extensive drawings, class notes, research and evaluation of processes and making. | Outstanding 22 -25 |
| • | Ceramic pieces demonstrate exceptional technical skill by employing sophisticated surface decoration techniques, indicating a comprehensive understanding of the chosen surface technique. The process dairy shows a high-level investigation of ceramic practice through drawings, class notes, research and evaluation of processes and pieces. Ceramic pieces show developing refinement in finishes, some more than others | High 18 - 21 |
| • | Ceramic pieces exhibit competent technical skill in incorporating various surface decoration methods, indicating a solid understanding of the chosen surface technique. Developing skills in refining and presentation of pieces some more refined than others. The process diary includes class notes, research, and reflections that investigate the student's ceramic practice. | Sound 13 - 17 |
| • | Ceramic pieces show some attempt at surface decoration techniques, though execution may lack refinement or complexity, showing a basic level of technical ability. The process diary shows basic reflection on the student's ceramic practice, with little development of ideas or research. Some class notes are missing. Refinement and presentation of pieces is basic, unglazed or unfired. | Basic 8-12 |
| • | Ceramic pieces display minimal surface decoration, reflecting a limited application of technical skills in the creation process. Process diary not submitted or limited reflection and class notes included Refinement and presentation of pieces is limited, unglazed or unfired. | Limited 0-7 |

|--|-----------------------|
| Marking Guidelines- I am an Artist Case Study | |
| Provides highly insightful reflections, demonstrating a deep understanding of personal artistic identity, influences, creative processes, and the connection between their work and broader contexts. Uses detailed, relevant examples to illustrate reflections, showing a clear connection between concepts and techniques. | Outstanding 22 -25 |
| Uses complex noun groups, causal conjunctions, and evaluative language effectively and accurately to enhance the clarity and depth of reflections | |
| The submission demonstrates the following: | High 18 - 21 |
| Offers clear and detailed reflections, showing a strong understanding of personal artistic identity, influences, creative processes, and the connection between their work and broader contexts. Uses relevant examples to support reflections, showing a good connection between concepts, techniques, and outcomes. | |
| Grammar and Language: Uses noun groups, causal conjunctions, and evaluative language effectively, with few errors, to enhance reflections. | |
| Provides general reflections that demonstrate an understanding of personal artistic identity, influences, creative processes, and the connection between their work and broader contexts. Uses some examples to support reflections, showing a basic connection between concepts, techniques, and outcomes. | Sound 13 - 17 |
| Uses noun groups, causal conjunctions, and evaluative language with occasional errors, contributing to the overall clarity of reflections. | |
| Provides basic reflections that show a limited understanding of personal artistic identity, influences, creative processes, and the connection between their work and broader contexts. Uses minimal examples to support reflections, showing a limited connection between concepts, techniques, and outcomes. | Basic 8-12 |
| Uses noun groups, causal conjunctions, and evaluative language with frequent errors, which may hinder the clarity of reflections. | |
| Provides superficial or unclear reflections that show little to no understanding of personal artistic identity, influences, creative processes, and the connection between their work and broader contexts. | Limite d 0-7 |
| Uses few or no examples to support reflections, showing limited engagement with the task | |
